

## ZSCALER AND GUIDEPOINT SECURITY

# Secure Your Network, Protect Your Business, Unleash the Power of Zscaler

Applications have moved to the cloud, users are everywhere, and adversaries are much more dynamic and destructive. Security teams are under pressure, and often under-resourced.

Realize the full potential of your Zscaler investments by more efficiently and effectively securing network connections. GuidePoint Security and Zscaler deliver cloud-native, zero-trust security framework. GuidePoint Security experts can maximize your Zscaler investments, helping you to expertly configure, deploy, and fine-tune your Zscaler platform capabilities for better security across all communications, devices and workloads.

## Increase Agility, Security, and Efficiency

With applications in the cloud, distributed and remote workforces, and the increasing reliance on AI, organizations need help securing communications, devices and users.

Zscaler is a cloud-native cybersecurity platform that protects thousands of customers from cyberattacks and data loss by securely connecting users, devices and applications from any location.

GuidePoint Security helps organizations optimize their Zscaler investments, make more informed cybersecurity decisions, and minimize risk. GuidePoint's white-glove approach builds and optimizes the Zscaler platform tailored to each organization's unique challenges to achieve desired security outcomes.

### Working together, GuidePoint and Zscaler help:

**Enable secure remote access** by shrinking the attack surface and preventing lateral movement by hackers

**Prevent data loss and leaks** by inspecting encrypted SSL traffic leaving organizations

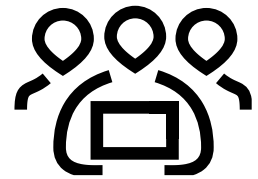

**Simplify security complexity** by securing access to SaaS platforms and preventing shadow IT and AI with consistent policies regardless of user location

**Mitigate risk from AI and Web Threats** by automatically identifying and blocking malware, phishing and risky generative AI tools

**Minimize implementation** challenges by eliminating misconfigurations and downtime

**Unify threat detection** by optimizing tools to ensure your Zscaler platform talks correctly to other security tools (e.g., SIEM, endpoints)

**Alleviate resource constraints** by providing expertise on demand to fill gaps for teams who lack time or specific certifications

## Stronger Together. Protecting What's Next.

Working with GuidePoint, your organization will be backed by our elite team of highly trained cybersecurity engineers, architects and consultants who come from organizations of all sizes, including Fortune 100 companies, the Department of War, and U.S. intelligence agencies.

# Unlock Seamless Identity Management Across All Zscaler Platforms

GuidePoint Security and Zscaler have partnered for more than a decade to help secure networks, cloud, IoT/OT, B2B applications, and data. Together, we help accelerate digital transformation for our customers and enable more agility, efficiency, resilience and security. The cloud-native Zscaler Zero Trust Exchange™ platform protects thousands of customers from cyberattacks and data loss by securely connecting users, devices and applications in any location. GuidePoint Security's Zscaler Delivery Certified Experts support companies of all sizes take full advantage of the power and potential of their Zscaler platforms and more effectively integrate, configure, and optimize Zscaler environments through:

- ✔ ZTNA Readiness Assessments
- ✔ Health Checks
- ✔ Migrate, Architect, Implement, Deploy, Optimize and Maintain Services
- ✔ Integration support for SD-WAN, SIEM, IAM, EDR, OT/IoT Microsegmentation, Unified Vulnerability Management and MDR solutions
- ✔ ZSaaS managed services
- ✔ AI Guardrail services
- ✔ RedCanary/SecOps services
- ✔ DLP and Cloud Firewall Implementation
- ✔ ZIdentity Migration Services
- ✔ SASE/SSE Workshops and SASE as a Service

As a trusted advisor and partner, GuidePoint Security provides expertise and a vendor-objective approach tailored to each organization's unique needs, environment, and business goals.

## Why GuidePoint Security

When cyber threats hit, you want the best on your side. GuidePoint Security designs, deploys, and delivers tailored identity and access management and other cybersecurity solutions that drive real results. We integrate solutions – such as Zscaler – across any environment – faster, smarter, and with less risk to strengthen your defenses. Accelerate your business with confidence – and protect what matters most.

## About Us

GuidePoint Security brings together proven expertise, great relationships, and leading technologies to solve our client's most complex cybersecurity challenges. As a trusted cybersecurity advisor and partner, GuidePoint keeps people, data, and operations safe. We deliver tailored cybersecurity services that adapt to safeguard the nation's leading organizations today and provide complete confidence in their cybersecurity tomorrow. Stronger Together. Protecting What's Next.
