GUIDEPOINT® SECURITY

CROWDSTRIKE PARTNERSHIP

Unlock the Full Power of Your CrowdStrike Falcon® Platform with GuidePoint Security

When it comes to selecting, implementing, and managing a security solution for your organization, you don't have to go at it alone.

The powerful partnership between CrowdStrike and GuidePoint Security helps organizations with what they need most – the ability to stop breaches. Together, we offer unparalleled expertise and commitment to deliver a combination of cutting-edge security solutions that mitigate risk, empower innovation, and help customers stay ahead of rapidly evolving cyber threats.

CrowdStrike secures the most critical areas of enterprise risk — endpoints, cloud workloads, identity and data — to keep customers ahead of today's adversaries and stop breaches.

GuidePoint Security engineers are highly certified on the CrowdStrike® Security Cloud and the CrowdStrike Falcon® platform, helping customers ensure they maximize the benefits of superior protection, better performance, reduced complexity, and immediate time-to-value. Our security engineering services include:

⊘ **Security Architecture Review**
Our expert practitioners will assess your current security stack and identify which CrowdStrike solutions best fit your environment and address your unique challenges.
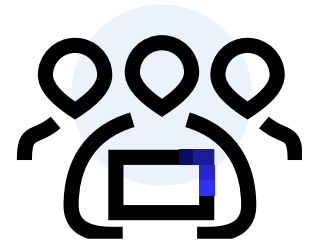

⊘ **Implementation**
Our certified experts can effectively deploy CrowdStrike solutions in your environment to improve your overall security posture.

⊘ **Optimization**
Our team will ensure your chosen CrowdStrike modules are working as intended and provide your organization with the protection it needs.

⊘ **Incident Response**
As a member of the CrowdStrike Enterprise Licensing Program, GuidePoint Security is certified to deploy CrowdStrike as needed for not only proactive assessments but also in emergency situations where immediate response is required. Our expert DFIR team is vetted and certified by CrowdStrike to perform IR services using their solutions.
