

SECURE YOUR NETWORK, PROTECT YOUR BUSINESS

Unleash the Power of Zscaler with GuidePoint Security

Applications have moved to the cloud, users are everywhere, and threats are more dynamic and destructive.

Realize the full potential of your Zscaler investments by more efficiently and effectively securing network connections. GuidePoint Security can expertly configure, launch and fine-tune your Zscaler platform for better security across all communications, devices and workloads.

Increase Agility, Security and Efficiency

With the power of the world's largest security cloud, Zscaler's cloud native Zero Trust Exchange platform protects thousands of customers from cyberattacks and data loss by securely connecting users, devices and applications from any location. Zscaler helps IT move away from legacy network infrastructure to achieve modern workplace enablement, infrastructure modernization, and security transformation.

GuidePoint Security helps organizations take full advantage of the power and potential of their Zscaler platforms. Our team can help organizations configure, launch, and optimize their Zscaler environment.

Zscaler and Zero Trust Services

GuidePoint Security has over a decade of experience as a trusted Zscaler partner, and our GuidePoint Security's Zscaler Delivery Certified Experts are ready to show you how we support companies of all sizes to architect their Digital Transformation, implement Zero Trust, and maintain a seamless and secure user experience through:

- ✓ ZTNA Readiness Assessments
- ✓ Architecture, Implementation, Deployment, and Optimization Services
- ✓ SASE as a Service
- ✓ Integration support for SD-WAN, SIEM, IAM, EDR, and MDR solutions
- ✓ DLP and Cloud Firewall Implementation
- ✓ ZIdentity Migration Services

Put a Highly-Trained **ELITE** Team on Your Side

Zscaler Delivery Certified

Our highly certified Zscaler cybersecurity experts have lived and breathed your job.

More than 50% of our workforce consists of tenured cybersecurity engineers, architects, and consultants with experience managing security within the DoD and U.S. intelligence agencies and Fortune 500 companies.

Secure Your Network, Accelerate Your Business

Flexibility

- ✓ GuidePoint understands that one size does not fit all. We help organizations make better, more informed cybersecurity decisions and minimize risk. Our white-glove approach enables us to tailor the experience to each organization's unique challenges to achieve desired security outcomes.

Experience

- ✓ When cyber threats hit, you want the best on your side. GuidePoint Security has many certified Zscaler experts who can expertly configure, launch, and optimize your Zscaler environment to drive real results. We can work across any environment—faster, smarter, and with less risk to strengthen your defenses.

Trust

- ✓ Relationships are part of GuidePoint Security's core values. We believe in open lines of communication and ensuring we're there for you when it matters most (and sometimes when it doesn't ... yet). That's how we help customers protect what matters most.

The Right Approach

With GuidePoint Security, we provide a regional touch with national expertise and scale. This provides easy access to the smartest, most skilled expertise to solve your toughest cybersecurity challenges. Our highly certified security practitioners and consultants are here to guide you through the complex security maze and help you make more informed risk decisions at the speed of business.

About Us

GuidePoint Security provides trusted cybersecurity expertise, solutions, and services to help organizations make better decisions that minimize risk. GuidePoint's unmatched expertise has enabled a third of Fortune 500 companies and more than half of the U.S. government cabinet-level agencies to improve their security posture and reduce risk.
