

CISO AS A SERVICE AND EXECUTIVE ADVISORY SERVICES

Risk Rationalization and Mitigation Leadership

Many lack the expertise to manage a full cybersecurity program, while some leaders need executive guidance or risk rationalization support.

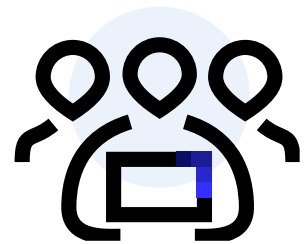

Gain critical cybersecurity expertise as you need it with Executive Advisory. We strategically align cybersecurity initiatives with business objectives, risk factors, and operational imperatives, to create operational and financial efficiency within your program. Let us help you drive measurable value and enable risk-informed decisions, compliance, and resilience.

Executive Guidance to Better Secure Your Organization

Skilled security leadership helps address the rapidly changing global threat landscape and drive a comprehensive security and risk mitigation strategy and program. Many organizations don't have the expertise or resources.

GuidePoint Security's Executive Advisory team provides expertise you need, as you need it, to support your risk and security objectives. We help define, build, optimize and manage a robust security strategy and program tailored to the unique needs of your business, including:

- ✓ Align cybersecurity strategy with business goals and risk appetite
- ✓ Deliver executive-level visibility and communication to the Board and senior leaders
- ✓ Facilitate regulatory compliance (NIST, ISO, CMMC, SEC, etc.)
- ✓ Develop cybersecurity maturity roadmaps and business-aligned investment plans
- ✓ Enable measurable business value through KPIs and performance benchmarking
- ✓ Guide mergers, acquisitions, and post-acquisition cybersecurity integration
- ✓ Coach high-performing cybersecurity professionals to become leaders

Turn to a **TRUSTED ADVISOR**

Gain immediate access to highly experienced cybersecurity professionals. Our engineers, architects, and consultants have expertise in security, risk, privacy, legal and compliance.

We protect enterprises of all sizes, SLED, the Department of Defense, and U.S. intelligence agencies. Let us to help strengthen your defenses and solve your toughest security challenges.

Cybersecurity as a Business Enabler

The GuidePoint methodology ensures security is positioned not as a cost center, but as a strategic business enabler. By integrating people, process, and technology into the corporate risk strategy, we empower organizations to proactively reduce risk, support digital innovation, and increase stakeholder trust.

From day-to-day leadership to executive and board-level support, GuidePoint Security Executive Advisory and CISO as a Service offerings can help your team with a program that is:

- ✓ **Affordable:** Get critical security expertise without the overhead of hiring a full-time CISO.
- ✓ **Scalable:** Address security needs as they arise, with flexibility to scale security expertise up or down as needed.
- ✓ **Experienced:** Stay current on complex, dynamic security trends and issues with expertise-on-demand.
- ✓ **Strategic:** Gain strategic guidance to optimize your security posture today, and a roadmap to maintain security as you adopt new technologies and trends such as AI.

Whether through part-time leadership or project-based support, let GuidePoint help build proactive defenses, close gaps, and align security with your organization’s values and objectives.
