

PALO ALTO NETWORKS PARTNERSHIP**Maximize the Value of Your Palo Alto Networks Platforms**

Ensuring the security of your environment, users and data in a dynamic solution and threat landscape is no easy task.

The powerful partnership between Palo Alto Networks and GuidePoint Security helps organizations modernize and simplify security to achieve better outcomes. Together, we offer best-of-breed platforms and expertise to enable secure digital transformation, safeguarding everyone and everything from the latest threats in every location.

GuidePoint Security brings together our expertise with specific platforms in order to design, implement and manage your network. Whether it's identifying the right solutions for your organization to providing guidance for addressing your cloud security goals, your SASE architecture and deployment, as well as NAC implementation and optimization, we are here to help you create a modern, and substantial, security posture.

Our engineers are highly certified on the Palo Alto Networks Cortex, Prisma, and NGFW platforms to help ensure you have the best protection, optimized performance, reduced complexity and immediate time-to-value. Our security engineering services include:

✓ **Security Architecture Review**

Our expert practitioners will assess your current security stack and identify which Palo Alto Networks solutions best fit your environment and address your unique challenges.

✓ **Implementation**

Our certified experts can effectively deploy Palo Alto Networks solutions, including NGFW, Prisma Access, Prisma Cloud, Cortex XDR, XSOAR and XSIAM in your environment to improve your overall security posture.

✓ **Optimization**

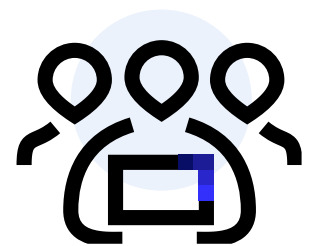

Our team will ensure your chosen Palo Alto Networks modules are working as intended and provide your organization with the protection it needs.

✓ **As a Service**

We can manage your Palo Alto Networks Firewalls and SASE to ensure desired outcomes.

✓ **Security Consulting**

Our team has expertise across multiple cybersecurity disciplines to help with: Cloud Security Architecture for AWS, Azure, GCP; Governance, Risk and Compliance, Digital Forensics and Incident Response; Security Analytics – SIEM & MSSP Optimization; Application Security – DevSecOps, Web & Mobile App Scanning; Threat & Attack Simulation – Penetration Testing, Social Engineering, Red Team.

Put a Highly-Trained **ELITE** Team on Your Side

More than 50% of our workforce consists of tenured cybersecurity engineers, architects, and consultants with vast experience designing, implementing and managing large scale projects.

Highly Certified Palo Alto Networks Experts

We are a Palo Alto Networks **Diamond Innovator**

GuidePoint Security is a Palo Alto Network Diamond Innovator, which provides the highest level of discounting and the best level of technical support. We have been a dedicated Palo Alto Networks Reseller and Solutions Provider for more than 10 years and have successfully completed hundreds of PANW solution deployments. Additionally, our expertise spans far and wide with highly-certified PANW resources across the full stack of solutions including: NGFW, Prisma Access, Prisma Cloud, Cortex XDR, XSOAR and XSIAM.

We can help you with:

- ✓ Product Health Checks
- ✓ Pre Sales Assistance - hands-on keyboard help
- ✓ Implementation and Deployment Services
- ✓ Architectural Reviews
- ✓ Proof of Value
- ✓ Migrations from other products
- ✓ Customized SOWs

Customers Routinely Choose GuidePoint Security for our Expertise on Palo Alto Networks Solutions

Our team has more than 40 nationally certified Palo Alto Networks engineers with expertise on the following solution areas:

- ✓ **Perimeter:** NGFW, NGFW Public Cloud
- ✓ **Remote Access:** GlobalProtect, Prisma Access
- ✓ **Endpoint:** Cortex XDR
- ✓ **SOC:** Cortex XSIAM
- ✓ **Automation:** Cortex XSOAR
- ✓ **Cloud Visibility:** Prisma Cloud
- ✓ **Containers:** Prisma Cloud, Container NGFW

“We have a strong partnership with GuidePoint Security, as they have invested time and resources to gain certifications across Palo Alto Networks solutions. With GuidePoint’s hands-on expertise, they can help our customers build and evolve their security programs to identify threats, optimize resources and integrate solutions that mitigate risk. The team brings deep cybersecurity expertise and focus and has been a key partner for helping to maximize the value of Palo Alto Network’s best-of-breed platforms.

About Us

GuidePoint Security provides trusted cybersecurity expertise, solutions and services to help organizations make better decisions that minimize risk. GuidePoint’s unmatched expertise has enabled a third of Fortune 500 companies and more than half of the U.S. government cabinet level agencies to improve their security posture and reduce risk.
