

WIZ STRATEGIC PARTNERSHIP

Unlock the **Full Power** of Your Wiz Platform with GuidePoint Security

Ensuring your cloud solutions are fully integrated and optimized can be challenging. Yet, misconfiguration can create gaps, lead to alert fatigue, and result in an underwhelming ROI.

GuidePoint Security is one of Wiz's largest professional services partners in the U.S., offering strategic guidance, certified expertise, and white-glove services to help customers unlock the full potential of their Wiz solutions. From implementation to optimization and management, GuidePoint helps you realize the full potential of Wiz as a strategic cloud security asset.

Better Insights for Better Decisions

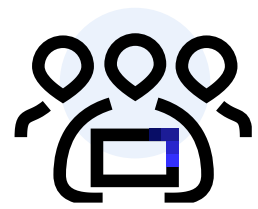

Cloud environments are built for speed and agility, and your cloud security must keep up. Wiz helps you build faster in the cloud, enabling security, dev, and DevOps to work together at scale with unparalleled visibility and rapid risk prioritization. GuidePoint Security, a top Wiz professional services partner in the U.S., ensures you realize the full value of your Wiz investments.

Trusted by enterprise and federal customers, GuidePoint delivers expert-led, outcome-driven deployments. Our certified cloud engineers deploy and optimize Wiz to your specific environment from day one, integrating it with your architecture, CI/CD pipelines, alerting systems, and compliance frameworks. We help accelerate onboarding, eliminate alert fatigue, and prioritize the risks that matter most to your business.

Beyond deployment, we configure Wiz to deliver insights mapped to your specific use cases. Our deep understanding of each customer's goals ensures each implementation is tailored to deliver measurable improvement in security posture, operational efficiency, and audit readiness. As a member of Wiz's Technical Partner Advisory Board, GuidePoint also brings strategic influence and platform foresight to every engagement, giving you a long-term advantage.
