

# Simple, Effective and Unified Identity and Access Management

Every new user, application, and device on your network adds complexity, strains visibility, and compounds risk. Without a unified identity solution, you may be leaving critical systems exposed to threats.

Unify access management for your employees, customers and partners with Okta, seamlessly integrated and optimized by GuidePoint Security. Our highly certified team can configure and fine-tune your Okta platform to close gaps and safeguard your users, devices and applications. We help you simplify complex access issues, giving you greater confidence that your identity ecosystem stays protected, even as your organization changes and grows.

## Comprehensive, Organization-wide Protection

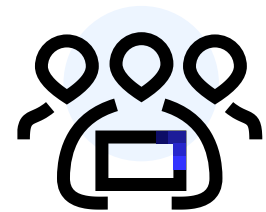

Identity is the new perimeter, and it's the top vector for a data breach. Access to every application, device and user must be carefully monitored and expertly managed. With application proliferation, network sprawl, and remote connectivity, access management is a multi-front battle.

The Okta platform makes it easier for organizations to manage and secure user access in complex on-premises, hybrid, and cloud environments.

GuidePoint Security's deep relationship with Okta means you get hands-on expertise to optimize technology adoption, mature your IAM security, and more quickly realize maximum value from your Okta platform investments.

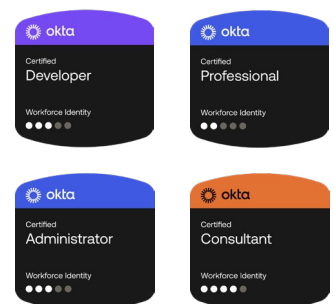

Our Okta services include:

- ✓ Okta platform configuration and optimization
- ✓ Okta platform and use case review
- ✓ Okta internal security review
- ✓ Okta product roadmap

# Simplified Access Management for Even the Most Complex Environments

Together, Okta and GuidePoint help better manage access to critical data, applications and assets while closing security gaps to protect what matters.

Okta solutions give fine-grained control over who can access what, when, and from where. It streamlines user access to applications, enhances security, automates user provisioning and deprovisioning, and manages access across various devices and platforms.

GuidePoint's highly-certified team leverages real-world expertise to implement, integrate, optimize and manage your Okta investment to ensure you extract maximum value and protection. Combining the expertise of our engineers and practitioners with leading technologies and solutions, like Okta, helps better control user access to critical information assets to:

- ✓ **Minimize Risk of Data Breaches:** Better manage user access and enforce robust authentication protocols.
- ✓ **Protect Against Unauthorized Access:** Grant only authorized users access to data and applications.
- ✓ **Support for MFA and SSO:** Add extra layers of protection, making it harder for attackers.
- ✓ **Simplify Access:** Provide faster access to tools and systems users need, shortening login times and minimizing platform switching.
- ✓ **Ease the IT Support Burden:** Streamline and automate access management, user provisioning and de-provisioning.
- ✓ **Reduce Administration Overhead:** Automate routine tasks and shift IT focus to more strategic priorities.
- ✓ **Enhance Identity Governance:** Streamline and automate governance.
- ✓ **Ensure Regulatory Compliance:** Build in reporting and audit trail capabilities to simplify compliance and ensure adherence to data privacy and security regulations.
- ✓ **Audit and Monitor User Activity:** Track user activity and demonstrate regulatory compliance.
