

Outpace Human-centric Threats with Precision Security

Attackers exploit human behavior through email, cloud and social attacks, knowing that insiders with access can bypass even the most advanced defenses. The result? Severe data breaches and operational risks.

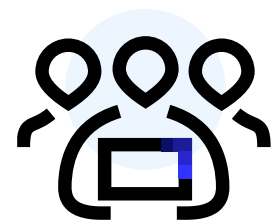

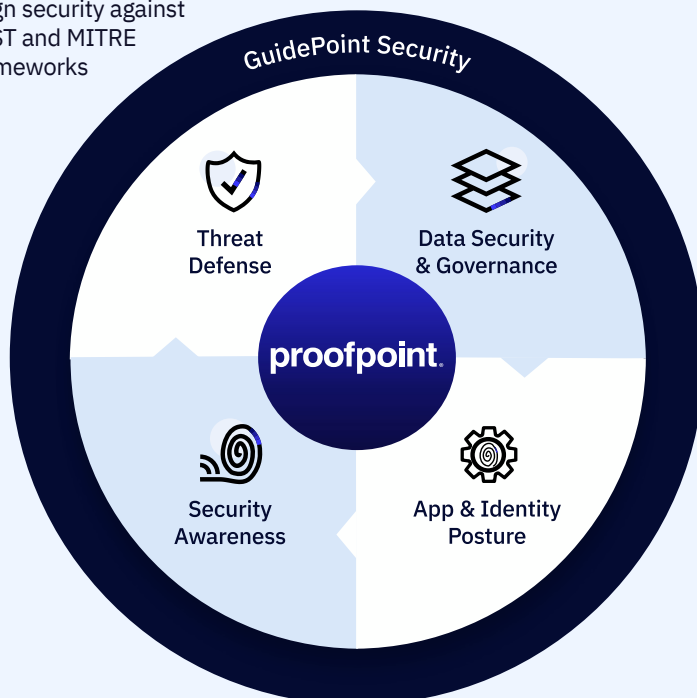

Secure your organization with the powerful combination of the Proofpoint platform and GuidePoint Security. GuidePoint can help fine-tune Proofpoint investments, and help you optimize protection against phishing, mobile, cloud, and social threats. With tailored strategies, proactive defense, and optimized deployments, we help ensure critical assets stay safe while empowering your team to combat the threats that target them directly.

Protect Your People. Secure Your Data.

Human error and insider attacks pose some of the greatest threats to your organization. Mitigate that risk with Proofpoint's human-centric security platform.

The GuidePoint Security team is composed of highly certified cybersecurity engineers, architects and consultants. Our team works with you to ensure your investments are realizing their full potential. We can help integrate Proofpoint within your security environment and fine-tune it for maximum protection. Together, we help users:

- ✓ Accelerate platform adoption
- ✓ Deter insider threat by ensuring DLP alerts are prevented, detected and quickly investigated
- ✓ Understand the risk level across every user and application
- ✓ Improve visibility and efficiency to reduce risk
- ✓ Enhance threat detection, prevention and response
- ✓ Align security against NIST and MITRE frameworks

Put a Highly-Trained, **ELITE** Team on Your Side

Your organization will be backed by our team of cybersecurity engineers, architects and consultants who are veteran practitioners from Fortune 100 companies, the Department of Defense and U.S. intelligence agencies.

From Human-centered Threats to Resilient, Human-driven Security

Proofpoint's platform spans email, social media, mobile and cloud to protect your team from the threats that target them directly. With Proofpoint, you reduce data loss risk by combating human error. More importantly, the platform helps you convert your people to a net-positive, mitigating more risk than they pose.

GuidePoint Security experts leverage real-world experience and deep platform knowledge to help organizations maximize the value and potential of their Proofpoint platform and other cybersecurity investments. We objectively assess your configuration and licensing options to ensure they are truly optimized for an accelerated ROI.

Combining the expertise of our engineers and practitioners with leading technologies and solutions, like Proofpoint, helps better control user access to critical information assets to:

- ✓ **Minimize Risk of Data Breaches:** Better manage user access and enforce robust authentication protocols.
- ✓ **Protect Against Unauthorized Access:** Grant only authorized users access to data and applications.
- ✓ **Support for MFA and SSO:** Add extra layers of protection, making it harder for attackers.
- ✓ **Simplify Access:** Provide faster access to tools and systems users need, shortening login times and minimizing platform switching.
- ✓ **Ease the IT Support Burden:** Streamline and automate access management, user provisioning and de-provisioning.
- ✓ **Reduce Administration Overhead:** Automate routine tasks and shift IT focus to more strategic priorities.
- ✓ **Enhance Identity Governance:** Streamline and automate governance.
- ✓ **Ensure Regulatory Compliance:** Build in reporting and audit trail capabilities to simplify compliance and ensure adherence to data privacy and security regulations.
- ✓ **Audit and Monitor User Activity:** Track user activity and demonstrate regulatory compliance.

Why GuidePoint Security

When cyber threats hit, you want the best on your side. GuidePoint Security designs, deploys, and delivers tailored cybersecurity solutions that drive real results. We integrate solutions across any environment — faster, smarter, and with less risk to strengthen your defenses. Accelerate your business with confidence — and protect what matters most.

About Us

GuidePoint Security provides proven cybersecurity expertise, solutions, and services to help organizations make better business decisions. GuidePoint's unmatched expertise has enabled a third of Fortune 500 companies and more than half of the U.S. government cabinet-level agencies to improve their security posture. Our partnership makes us your trusted advisor — not just another service provider.
