

Unified **Protection** to Stop Lateral Threats Faster

Modern, multi-stage cyberattacks can spread across endpoints, clouds, and the network. Users need correlated data and a unified view.

Realize the full value of your Elastic Security investments with GuidePoint Security. Our certified experts help architect, deploy and optimize your Elastic Security SIEM and AI solutions. Partnering with GuidePoint ensures an organization can harness Elastic's AI-driven detection, XDR, and security analytics to reduce risk, improve response times, and strengthen the overall security posture.

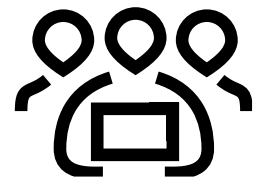

Maximize Your Investment in Elastic Solutions

Modern cyber attacks spread across the entire IT environment. Elastic Security provides unified visibility and actionable insights across the IT environment. Connecting security data across endpoints, cloud, and network infrastructure speeds threat detection and incident response, and helps security teams stay ahead of sophisticated cyber threats.

GuidePoint's Elastic-certified professionals specialize in architecting, deploying, and optimizing Elastic Security and SIEM solutions. Our team enables your organization to realize the full value of the Elastic Stack — including Elasticsearch, Kibana, and Elastic Security — to deliver:

- ✓ Unified visibility and advanced threat detection across your entire environment
- ✓ Real-time security analytics and automated alerting to accelerate incident response
- ✓ Open, flexible integrations for ingesting telemetry from any source
- ✓ Actionable dashboards and case management to empower your SOC teams

Partnering with GuidePoint ensures your organization can harness Elastic's AI-driven detection, XDR, and security analytics to reduce risk, improve response times, and strengthen your overall security posture.

Stronger Together. Protecting What's Next.

Working with GuidePoint, your organization will be backed by our elite team of highly trained cybersecurity engineers, architects and consultants who come from organizations of all sizes, including Fortune 100 companies, the Department of War and U.S. intelligence agencies.

Empower Your SOC and Accelerate Incident Response

As certified Elastic experts, GuidePoint can help create built-in response orchestration, including host isolation, file retrieval and integrations, including:

Federated search and hybrid data access

- ✓ S3 + cross cluster + hybrid Federated search across object stores, cloud and on-prem
- ✓ Deploy Elastic in AWS, AWS FedRAMP, GCP, Azure
- ✓ Unified search and analytics across all your data, wherever it lives while ensuring compliance

Cost-effective data ingestion solutions

- ✓ Reducing noisy or redundant logs before indexing
- ✓ Enriching events with threat intelligence or asset context
- ✓ Selectively routing high-value events to hot storage and lower-value events to cost-effective data tiers or searchable snapshots

AI for the SOC (AI-powered detection engineering and real-time alert correlation)

- ✓ Augment expertise with a built-in conversational AI assistant
- ✓ Automate triage with AI-driven attack discovery, triage, investigation and response
- ✓ Accelerate data onboarding with automated import
- ✓ Elastic AI SOC Engine (EASE) to adopt Elastic Security without a full rip-and-replace

Security analytics platform and business intelligence

- ✓ Unified data platform for fraud detection and investigation
- ✓ Data integration, cleansing, normalization, and real-time detection at scale
- ✓ Extensible schema aligned with Elastic Security Solution for compatibility with existing fraud workflows

Why GuidePoint Security

When cyber threats hit, you want the best on your side. GuidePoint Security designs, deploys, and delivers tailored cybersecurity solutions that drive real results. We integrate solutions across any environment – faster, smarter, and with less risk to strengthen your defenses. Accelerate your business with confidence – and protect what matters most.

About Us

GuidePoint Security brings together proven expertise, great relationships, and leading technologies to solve our client's most complex cybersecurity challenges. As a trusted cybersecurity advisor and partner, GuidePoint keeps people, data, and operations safe. We deliver tailored cybersecurity services that adapt to safeguard the nation's leading organizations today and provide complete confidence in their cybersecurity tomorrow. Stronger Together. Protecting What's Next.
